RULE 116 AMENDMENT

Sir:

In response to the Final Office Action of December 17, 2002, Applicants respectfully request that the above-identified application be reconsidered in view of the amendments and remarks that follow, and that the application be passed to issue.

In the Claims

Please amend the claims as follows:

1. (TWICE AMENDED) A method of manufacturing an integrated circuit, which method includes a stage wherein lateral isolation regions (spacers) are formed at the sides of a projecting polysilicon region so as to be in contact therewith, said lateral isolation regions each being composed of a smaller isolation layer (402) that is formed by depositing an
